

# JAIVIGNESH

[jp8270@srmist.edu.in](mailto:jp8270@srmist.edu.in) | 9003669312 | 2027

**B.Tech, Computer Science and Engineering - Artificial Intelligence and Machine Learning**

Address: 18, Pookkara 3rd Street, Thanjavur

## Education

---

### SRM IST-Trichy 2027

B.Tech · Computer Science and Engineering - Artificial Intelligence and Machine Learning

CGPA - 8.35/10

### Velammal Bodhi Campus 2023

Class XII - CBSE · Thanjavur Percentage - 63%

### Morning Star Matriculation School 2021

Class X - CBSE · Thanjavur Percentage - 100%

## Projects

---

### Cyberbullying Detection and Social Media Comments

- *Python, DistilBERT, Hugging Face Transformers, PyTorch, Pandas, Streamlit*
- Fine-tuned DistilBERT on the Jigsaw Toxic Comment Dataset for multi-label classification across 6 categories, achieving F1 score of 0.87+.
- Built and deployed a real-time inference pipeline via Streamlit and a Chrome Extension for live content moderation on social platforms.

### Voice-Based Hospital Appointment System

- *n8n, REST APIs, Voice Recognition Integration*
- Architected an end-to-end voice-enabled booking system using n8n automation workflows and third-party API integrations.
- Reduced manual appointment scheduling effort by automating patient intake and slot-allocation logic.

### Lung Disease Prediction using Machine Learning

- *Python, Scikit-learn, Pandas, NumPy, Machine Learning*
- Developed a classification model with data preprocessing and feature selection, improving prediction accuracy over the baseline.
- Applied cross-validation and hyperparameter tuning to ensure model robustness on unseen data.

## Certifications

---

### Generative AI Foundations | [Link](#)

AWS Academy

Completed a workshop on Generative AI, Large Language Models, and responsible AI principles. Gained hands-on exposure to AWS-supported GenAI workflows and prompt engineering fundamentals.

### Cisco Networking Academy | [Link](#)

Successfully achieved student-level credential for completing the Introduction to Modern AI course.

## Competitions

---

### BIT V-PRAYUKTI'25 | [Link](#)

BANNARI AMMAN INSTITUTE OF TECHNOLOGY

### Competed in NOOB Hackfest 24-Hour Hackathon (Hardware Edition) | [Link](#)

Built a wearable industrial safety prototype integrating RFID-based worker identification with real-time gas, temperature, and heart-rate monitoring.

## Skills

---

**Programming Languages:** Python, C, C++, Java, SQL

**Technical Skills:** Machine Learning, DSA, Deep Learning, Generative AI, Agentic AI, Data Preprocessing and Feature Engineering, Model Evaluation and Optimization

**Tools and Technologies:** VS Code, Google Colab, GitHub, n8n, Linux

**Languages and Frameworks:** NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch

## Languages

---

Tamil [Native Proficiency], English [Professional Working Proficiency]
